High-minded – book

We all have had, at one moment or another, the feeling of fighting our own minds, not knowing how to control them. When things go well, we think we were lucky. When they go badly, we think we're weak, not good enough, or that someone set us up. Is it true? Not at all. Almost every time the outcome, good or bad is decided by us, in our minds. That's what we're here to talk about! Let's find out how we can be more positive, more attentive and effective, more confident.

HIGHLIGHTS: Growing relevance of the subject for both parents and teachers; practical exercises for training our minds in the classroom or at home; tips for public speaking; the importance of well-being and mind discipline to go through everyday life; paperback.

ISBN | 9789896798703

TUBARÕES

Conhecem-se mais de 500 espécies diferentes destes animais pré-históricos. São seres magníficos com características surpreendentes, como, por exemplo, o tamanho, que pode variar entre os mais de 15 m de tubarão-baleia e os 20 cm de tubarão-anão.

CARNIVOROS

Das várias famílias de dinossauros carnívoros, a família Tyrannosauridae destaca-se das outras por englobar alguns dos maiores predadores terrestres, como o Tyrannosaurus rex. Este magnífico predador, apesar de possuir membros bastante pequenos, que poderiam limitá-lo em alguns casos, era compensado pelos seus 60 dentes, que lhe conferiam uma dentada de força extrema e implacável.

Dominoes

One of the best-known children's playthings, dominoes make an excellent tool to help develop reasoning, concentration, the importance of rules and emotional intelligence. With that in mind, we've developed two different approaches to this game. On **Maths**, in a simple and playful manner, we encourage children to explore their first insights on addition and subtraction. On **Nature** we explore the development of observation and memory skills with 36 pieces illustrated with items from nature to play and learn with.

Tidy tinies

Because of its importance, observation and association skills should be trained and developed from the very early stages of growth. Once children start identifying objects we should encourage and help them train these competences by playing simple games. This sorting game was created to help parents with that task. Simple daily life objects depicted with carefully thought illustrations to sort out accordingly to their rightful places. A simple game that will help our small ones to learn while they play.
